

Work the seven places in order. Check off each one when you have actually looked, not when you have thought about looking.

THE SEVEN PLACES THEY HIDE

- ☐ 1. Card and bank statements — two months, line by line
- ☐ 2. App Store — Settings, your name, Subscriptions
- ☐ 3. Google Play — profile, Payments, Subscriptions
- ☐ 4. PayPal — Settings, Payments, automatic
- ☐ 5. Amazon — channels, Subscribe & Save
- ☐ 6. The yearly ones — search email for renewal
- ☐ 7. The forgotten shelf — trials, gym, boxes
- ☐ Done. Total it up.

THE ONE THAT HIDES BEST

App store charges land on your statement as one line from Apple or Google, with several apps stacked behind it. A careful statement read still misses them.

CANCEL DAY, NOT CANCEL SOMEDAY

Put a date on every line in the cancel pile before you put this sheet down. An undated cancel is a subscription you keep paying for.
