

Print this once and put it where you will see it. Every job you clear pays tickets and a prize sticker, and **nothing here ever comes off**. No streak to break, no month that resets, no account to make. Empty circles are prizes you have not gone and got yet, not things you are behind on.

TICKETS

Cross off one box for every step you clear. The count only goes up, so there is nothing to keep up with and nothing to lose. The two red boxes are bonus prizes you reach, not tickets you hand over.

BONUS

BONUS

Prize stickers are on the **Prize Stickers** sheet, free on the same post. **Did the job on paper instead of in the tool? It still counts** — cross off the tickets and stick the prize on. Nothing on this site is locked behind a sticker.
