

Every prize handed out so far. Cut them out and stick them on your **Prize Counter** sheet as you clear each one.
Nothing here expires, so a sticker you put down stays down.

ONE WITH EVERY POST

HOW TO USE THIS SHEET

1. Print the **Prize Counter** sheet once and put it somewhere you will see it.
2. Clear a job, on paper or in the tool on the post. Either one counts.
3. Cut out that prize along the dashed line and stick it in any empty circle.
4. The plain circles with no cut line are prizes that have not shipped yet. Leave them.
5. Write the tickets on the Prize Counter tally. They only ever go up.
6. The two **bonus prizes** aren't from a post. Cut one out when your tally reaches its number, 25 or 50.

New prizes ship with new posts, so reprint this page when you want the latest ones. The old stickers don't change. Glue stick or tape both work. These are plain paper, not label stock.
